Oval pool with invisible supports

## Tuscany wall ∴ ∴ y.e.s

Wall height: 52" (1.32 m)

The wall is available in shades of clay for all models and sizes. It is protected by a resin based paint called Resin Shield which provides an extra layer of resistance against corrosion.

Yard Extender System

Our oval pools come with the Yard Extender System, a series of practically invisible lateral supports that you place in the ground. It is a must for anyone who wants to make the most of their yard – and their pool !

## ∴ amazing durability!

The Zenith's steel structure is entirely protected by a variety of finishes. These optimize its resistance to corrosion while preventing condensation between the liner and the wall – ensuring a long, solid life for your pool.

The purchase of an aboveground pool provides years of pleasure and fun, but it also involves water safety. Although Zodiac cannot supply a full-time lifeguard, we strongly recommend that you implement the following safety rules. These will help provide a pleasant atmosphere for you and your family.

- NEVER jump or dive in an aboveground pool.
- Maintain constant adult supervision when children are in or near any body of water.
- Read all of the safety, installation and maintenance information contained in the Zodiac instruction manual and water safety brochure before you start installing your pool.
- Ask your city about any specific rules and regulations that apply to aboveground pools.
- Follow the Zodiac instruction manual and maintenance instructions.
- Never remove applied or posted safety stickers or signs from your pool or pool area.
- Barriers to prevent unsupervised access, especially by young children, should be built, installed and checked on a regular basis to ensure they are in good working order.

- Inspect your Zodiac pool, barriers, alarms, and other related equipment on a regular basis in order to ensure they are in good working order and that they are safe.

Zodiac installation, maintenance and safety manuals contain detailed tips and recommendations. They must be read, followed and applied on a regular basis, as they will prevent unnecessary accidents and will ensure many summers of pleasant and safe family fun.
